RE: Sven Co-op's MP3 Player Technology

To Whom It May Concern:

On Tuesday, March 27, 2001 Tom Taylor of the Half-Life Modification 'Sven Co-op' sent me the source files for the MP3 Player for which RealDM is accused of stealing.

As Mark, an additional coder for Sven Co-op (SC), joined the development team after March 27th it is impossible that he helped code, or as he claims, coded most of, the MP3 player. In truth, the MP3 player was coded by Tom, as many comments in the code show.

Sesechial Software has a strong policy of non-support for thieves, particularly when it concerns software fraud and breach of copyright. Sven Co-op has Sesechial Software's full support in this matter.

At the time of writing, this issue was resolved, however if it were to develop further, Sesechial Software would not hesitate in supporting any legal action taken by Sven Co-op or its members.

If you wish to discuss this further with me, please do not hesitate to contact me.

Faithfully,

Michael Shimmins (shimms@tae-mod.com)
